ASE GROUP

ASE Technology Holding Fourth Quarter 2022 Earnings Release

ASE Technology Holding Co., Ltd.
February 9, 2023

Safe Harbor Notice

This presentation contains "forward-looking statements" within the meaning of Section 27A of the United States Securities Act of 1933, as amended, and Section 21E of the United States Securities Exchange Act of 1934, as amended. Although these forward-looking statements, which may include statements regarding our future results of operations, financial condition or business prospects, are based on our own information and information from other sources we believe to be reliable, you should not place undue reliance on these forward-looking statements, which apply only as of the date of this press release. The words "anticipate," "believe," "estimate," "expect," "intend," "plan" and similar expressions, as they relate to us, are intended to identify these forward-looking statements in this presentation. These forward-looking statements are necessarily estimates reflecting the best judgment of our senior management and our actual results of operations, financial condition or business prospects may differ materially from those expressed or implied by the forward-looking statements for reasons including, among others, risks associated with cyclicality and market conditions in the semiconductor or electronic industry; changes in our regulatory environment, including our ability to comply with new or stricter environmental regulations and to resolve environmental liabilities; demand for the outsourced semiconductor packaging, testing and electronic manufacturing services we offer and for such outsourced services generally; the highly competitive semiconductor or manufacturing industry we are involved in; our ability to introduce new technologies in order to remain competitive; international business activities; our business strategy; our future expansion plans and capital expenditures; the strained relationship between the Republic of China and the People's Republic of China; general economic and political conditions; the recent shift in United States trade policies; possible disruptions in commercial activities caused by natural or human-induced disasters; fluctuations in foreign currency exchange rates; and other factors. For a discussion of these risks and other factors, please see the documents we file from time to time with the Securities and Exchange Commission, including the 2021 Annual Report on Form 20-F filed on March 29, 2022.

2022 Recap

- **2022 revenue and margin improvement achieved targets**
  - 2022 ASE ATM revenue grew 13% year over year (all in USD terms, on pro forma basis), more than 2x of the logic semiconductor industry growth
  - 2022 ASE ATM GM/OPM was 28.5%/17.9% (29.4%/19.1% excluding PPA (purchase price allocation)), surpassing historical peak levels of 27.0%/16.6%
  - 2022 ASE consolidated revenue grew 16% year over year
  - 2022 ASE consolidated operating margin improved 1.1 percentage points year over year with net profit growth of 29% year over year (in USD terms, on pro forma basis)
  - 2022 Advanced Packaging revenue grew 27% year over year, Test revenue grew 15% year over year, momentum continues in mid to long term
  - 2022 Consolidated automotive revenue grew 50% year over year, around $1.6B; 2022 ATM automotive grew 50% year over year, reaching close to $1B milestone

Note: All numbers indicated are in USD terms. 2022 year over year comparison numbers are stated on a pro forma basis, which excludes the 4 disposed China sites from year 2021

© ASE Group. All rights reserved.

2023 Outlook (1/2)

- **Industry outperformer with enhanced structural profitability**
  - Expect ASE ATM 1Q2023 revenue to be sub-seasonal due to industry destocking; however, ATM business should trough in the first quarter followed by sequential quarter to quarter growth for the remaining of the year
  - With multiple market uncertainties, 2023 ATM revenue year over year will range from flattish to high single digit decline
  - Expect higher mix of Advanced Packaging and Test business
  - Expect continuing market share growth due to increased semiconductor complexity, IDM outsourcing and ASE's smart manufacturing offering
  - Reiterate ASE ATM annual structural gross margin of mid 20%s to 30%

Note: All numbers indicated are in USD terms.

© ASE Group. All rights reserved.

2023 Outlook (2/2)

- **Late to fall, Early to rise**
  - Scale, technology leadership, flexibility and proven record make ASE an indispensable manufacturing partner, resulting in more resilient pricing and expanding lead against competition during volatile market timing.
  - ASE's global footprint gives strong competitive advantages in current geopolitical environment: ATM high-end supply chain in Taiwan plus diversified capacities in China, Korea, Malaysia, Singapore, Japan; EMS supply chain in China plus diversified capacities in Taiwan, Vietnam, Mexico, and Europe. Future expansion will be planned based on customer and end market requirements.
  - Capacity expansion continues in 2H2023 although at a slower rate comparing to 2022, however, more expansion in building, infrastructure, and smart manufacturing preparing for next cycle.
  - Further improvement of cash flow based on disciplined capital investment, scale efficiency, and sustained profitability.

First Quarter 2023 Outlook*

Based on our current business outlook and exchange rate assumptions, management projects overall performance for the first quarter of 2023 to be as follows:

- **In NT dollar terms, our ATM 1st quarter 2023 business levels should be similar with proforma 2nd quarter 2021 levels;**
- **Our ATM 1st quarter 2023 gross margin should be above 2nd quarter 2019 gross margin;**
- **In NT dollar terms, our EMS 1st quarter 2023 business levels should decline high single digit year over year;**
- **Our EMS 1st quarter 2023 operating margin should be similar with 1st quarter 2021.**

*: Due to the impact of the COVID-19 outbreak, our outlook continues to be subject to a higher degree of risk. The information provided is done so as a reference of our current view as of the date of this presentation. Our business, financial condition and results of operations are of greater adverse risk; and, as a result, there may be a higher likelihood of material variances between our expected and actual results.
